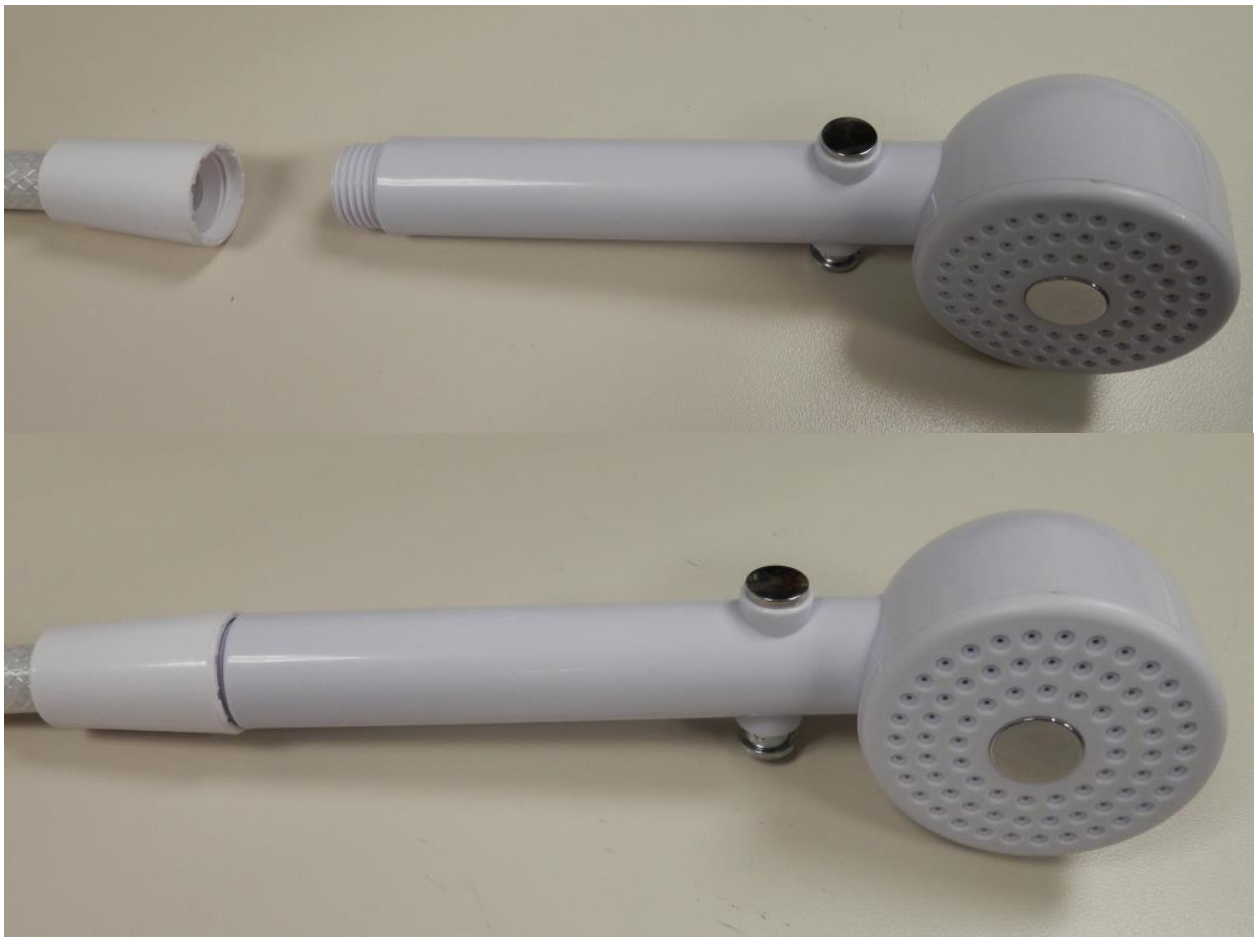

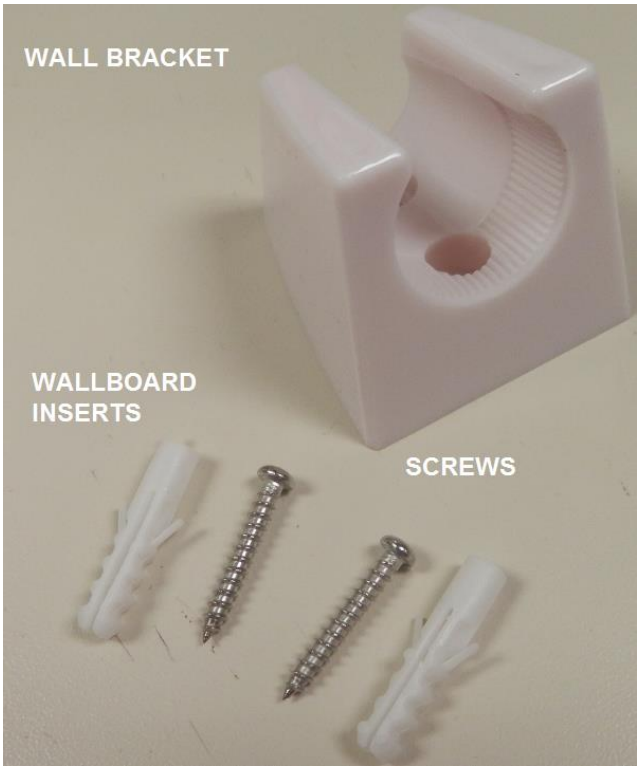

Fig. 10

9. Attach the existing shower head to the Diverter Valve. Refer to Diagram in Fig. 2.

WALL BRACKET INSTALLATION

1. Determine type of surface that wall bracket will be mounted onto.
2. Position wall bracket on wall approximately 4-inches below and either to the left or right of the shower head.
3. While holding the wall bracket at the desired position, mark the mounting hole locations.
4. Remove the wall bracket and drill 1/4-inch holes.
5. Insert anchors into mounting holes.
6. Position the wall bracket over the mounting holes and secure to the wall with screws provided.

LIMITED WARRANTY

Your Medline product is warranted to be free of material defects in materials and workmanship for a period of six (6) months from the date of purchase. This express warranty extends only to the original purchaser. This warranty does not extend to damage or failure occurring as a result of owner misusage or negligence, normal wear and tear, or other causes unrelated to the manufacture and design of the product. This express warranty is Medline's sole and exclusive warranty and your sole remedy in the event of default or failure. Medline is not responsible for any consequential or incidental damages or cost arising from the use of the warranted products, or any defect therein or failure thereof.

KEEP YOUR RECEIPT! Contact us at 1-800-MEDLINE, Monday-Friday 8AM-5PM CST if you encounter any problems or for information regarding repairs or maintenance.
